

Suicide Awareness Alert

This alert has been issued because of specific intelligence relating to suicide activity on the rail network which it is believed may prompt individuals to take their own lives.

Date(s) applicable: 04 January 2019	
Date Issued: 14 December 2018	
Issued by: Victoria Clent	
Applicable route/operator:	Scotland / Scotrail
Local suicide prevention representatives:	Mark Henderson (Network Rail) - 07515 620640 Stewart McFarlane (Scotrail) - 07840 654974

Nature of alert:

On 04 January 2017, a 16 year old boy took his own life at Polmont station by jumping from the platform shortly after 17:00.

His death came four months after a 19 year old male had taken his own life at the same location.

This type of tragic event – involving such a young person who was known widely in the local community – leads to concerns that the anniversary of his death could possibly:

- attract vulnerable people to the same location to take their own lives
- encourage mourners to the site to attend vigils which may impact upon the safety and operation of the railway
- trigger memories for rail staff involved in the incident

Recommended action:

Consideration should be given to Network Rail, staff of operators or BTP officers visiting the location of the incident around the time it took place to be on the look-out for:

- persons showing signs of distress or upset who may be at risk of suicide, or mourners gathering in an acts of remembrance
- any tokens of remembrance, which in line with industry guidance should be removed

It might also be appropriate to promote the industry's *Small Talk Saves Lives* campaign locally around this time to heighten community awareness of suicide prevention.

Managers of staff who may have been involved in the incident or could be affected by its anniversary should look for signs of trauma amongst them and offer support as per their organisation's welfare arrangements.
