

Suicide Awareness Alert

This alert has been issued because of specific intelligence relating to suicide activity on the rail network which it is believed may prompt individuals to take their own lives.

Date(s) applicable: 10 March 2019	
Date Issued: 18 February 2019	
Issued by: Victoria Clent	
Applicable route/operator:	Scotland / Scotrail
Local suicide prevention representatives:	Mark Henderson (Network Rail) - 07515 620640 Stephen Elliott (Scotrail) - 07841 269859

Nature of alert:

On 10 March 2018 at 22:56, a 17 year old boy took his own life on the railway at Kingskettle, close to Ladybank station.

Described as 'loving life' by his friends and family, this unexpected suicide was heavily reported across all local media channels.

Due to the boy's age, the very unexpected nature of the event, the amount of grief expressed in the local community and the local media coverage, there is a concern that this first anniversary date:

- could attract vulnerable people to the same location to take their own lives
- may encourage mourners to the site to attend vigils which may impact upon the safety and operation of the railway
- could trigger memories for rail staff involved in the incident

Recommended action:

Consideration should be given to Network Rail, staff of operators or BTP officers visiting the location of the incident around the time it took place to be on the look-out for:

- persons showing signs of distress or upset who may be at risk of suicide, or mourners gathering in an acts of remembrance
- any tokens of remembrance, which in line with industry guidance should be removed

It might also be appropriate to promote the industry's *Small Talk Saves Lives* campaign locally around this time to heighten community awareness of suicide prevention.

Managers of staff who may have been involved in the incident or could be affected by its anniversary should look for signs of trauma amongst them and offer support as per their organisation's welfare arrangements.

Support and additional information
